

# Centralized Approach

- 24 X 7 monitoring of all WLAN activity
- Real-time detection of rogue WLANs
  - Rogue Access Points
  - Soft APs
  - Ad hoc networks
  - Accidental associations
- Requires limited personnel resources
- Cost effectively deployed and easily scaleable across any enterprise

# What is AirDefense?

- 24 x 7 monitoring of WLAN airwaves
  - Intruders
  - Impending threats
- Similar to physical security with video cameras

# Sniffers/Scanners Vs. AirDefense

## Stateless Snapshot

NetStumbler  
Kismet  
AiroPeek

## Stateful Monitoring

AirDefense

- Site Surveys
- Scanning
- Sniffing
- War Driving

- Site Surveys
- Scanning
- 24 x 7 Monitoring of workstations & their AP associations for Analysis
- Intrusion Detection & Protection
- WLAN Management
